

Cinisello Balsamo, March 2008

## PRESS RELEASE

### **Queens 47'** *The possible dream*

Can ergonomics, comfort and design live together in fifteen meters only?

**Queens 47'** is the answer.

In 15 metres it is possible to find the style, the shape originality and the strength of a superior dimension boat.

**Queens 47'** as the range entry level shows at first sight its dynamic personality and an unmistakable style.

This is a never end emotion that begins by fascinating with its stylish chosen and carry on focusing on the most technological details, from the hull till the upper structures. **Queens 47'** reveals in every detail, every line a stylish language so coherent that each point creates a real attractive look.

Sailing on board of this motoryacht LOA mt 15,41 and max beam mt 4,25 it is an absolutely unforgettable experience. Technology and tradition are together to create a totally new concept thanks to volumes and spaces studies making the owner's cabin an architectural masterpiece.

The Arch. Alessandro Inno was influenced by ergonomics and comfortability in realizing a night zone presenting a nearly high of two metres incredible for its category.

Amazing in deigning spaces very usable thanks to a special sliding opening system

We find the same care of the external layout study on the internal architecture where volumes, shapes and natural light plays together for a bighting result. Precious materials gives the real impression of luxury especially some detail adds and beefs up with a simple and classic but very innovative idea.

One of the peculiarities consists of the possibility to have a side door near the pilothouse and a wide stern crew cabin with toilet in case the owner prefers to not have a tender garage which can be replaced by the hydraulic movement of the platform.

The powerful engines system 450 hp x 2 make excellent performances but mostly surprise for comfort and manoeuvrability thanks to new keel concept.

Max speed with standard motorization easily goes to 30 knots injecting to the owner sensations of freedom that draw up freedom sensations to the reality.
